

*"CPI provided the IT expertise and support we needed."
-Jason Decker, DDS*

**Is your Dental Practice demanding more from IT?
We can help.**

Why CPI?

WE UNDERSTAND YOUR PRACTICE...

Dental practices are booming as a result of the passage of the Affordable Care Act. Line of business applications such as Invisalign, Vistadent, and Eaglesoft demand higher performance from your IT environment. Industry regulations such as HIPAA and PCI require securing your information. Whether you are using these or other dental practice systems, CPI understands how it all ties together.

THE BENEFITS TO YOUR PRACTICE...

- More predictable support costs.
- Optimized network resources for greater efficiency.
- Reduced business interruptions.
- Increased network uptime.
- Increased employee productivity.
- Improved info for better IT resource planning.
- Reduced burden on limited internal resources.
- Improved ability to recover from system faults.
- Provide data on systems availability for reporting on internal Service Level Agreements.
- Higher ROI on technology investments.

MANAGED IT SERVICES

Monitoring & Alerting

Deep, fully automated, monitoring and alerting of health, availability and performance of infrastructure and services to streamline operations.

Asset Management

Accurate, detailed, and automatic discovery of all network devices and applications.

Network Audits

Fully automated built-in Network Audits allow CPI to identify potential network weaknesses.

Cloud Services Management

CPI can monitor and manage cloud services like Office 365, hosted IP Telephony solutions, and hosted line of business applications to quickly identify performance issues.

Remote Control & Remote Tools

CPI uses lightning-fast connections to any network device and extensive remote management tools to fix problems without compromising network security.

Patch Management

Seamlessly automate patching for Microsoft operating systems and software. Helps to maintain a highly secure environment.

Management Reporting

Our large library of powerful management reports demonstrate the benefits of our managed services offerings and lets you know how well your systems are running.

Our Customers Are Like You

We have helped dental practices such as Cooney Orthodontics, Capital District Pediatric Dentistry, and East Hudson Oral, Maxillofacial & Implant Surgery who have trusted CPI as their IT partner.

Computer Professionals International
We are... IT!
